

ONLINE SCIENCE EDUCATION

WELCOME TO [RANKSTUDENTS.COM](https://rankstudents.com), A FREE LEARNING MANGEMENT SYSTEM FOR HIGH SCHOOL AND PRE-UNIVERSITY STUDENTS AROUND THE WORLD

More than 70,000 Questions & Answers for Math and Science & Advanced Tests, Scores & Descriptions are Explained in this site for the benefit of students.

URL: <https://rankstudents.com>

RANKSTUDENTS.COM is a free Learning Management System (LMS) to encourage children around the world to take up the study of Science and Mathematics. It was developed by a NASA Scientist, Prof. Dr. Nazeer Ahmed, BE (Mysore), MS (Caltech), AeE (Caltech), PhD (Cornell), MBA (Rider), PE (CA).

Students learn through practice. This LMS offers more than 70,000 questions, answers and answer explanations in Physics, Mathematics, Chemistry and Biology. The questions are taken from the highly competitive JEE, JEE advanced, NEET, high school and pre-university examinations in India. The material is applicable to Science and Math studies, including pre-medical and pre-engineering, anywhere in the world.

Actual tests from exams are provided. When a student takes and completes a test, the software provides him/her with a score, pinpoints the errors and provides guidance for the right answers.

We recommend that this software be used in combination with good textbooks. A good teacher is a blessing to students who want to learn. However, there is a shortage of good teachers around the globe. In such cases, Rankstudent.com serves as a study aide to level the playing field for students from all walks of life.

It has been found that repeated practice with these tests and a mastery of the material can improve a student's score by as much as 35% and give him/her a good chance to get into university of his choice.

Knowledge is a gift from God. We hope that this service will help students around the world learn and prosper.
